

DRY-OUT

*LCV
unscheduled
deployment
and
optimisation*

*Inability to
track gas
received /
delivered at
station*

*Unplanned
Calling for
Stock
Replenishment*

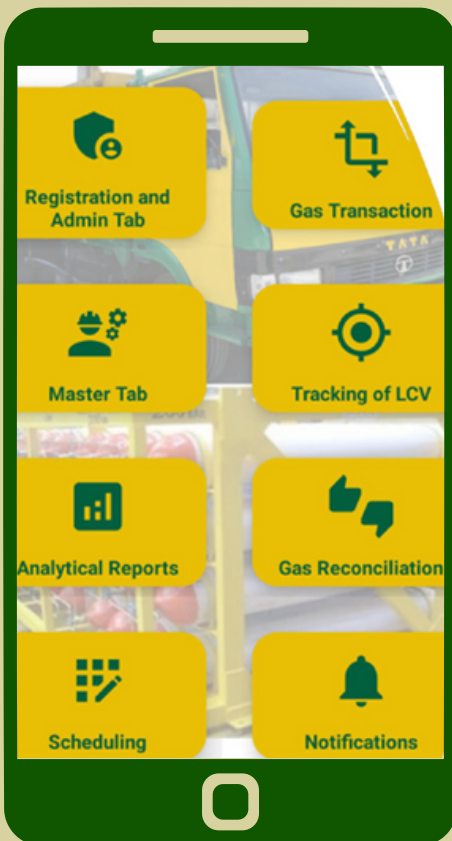

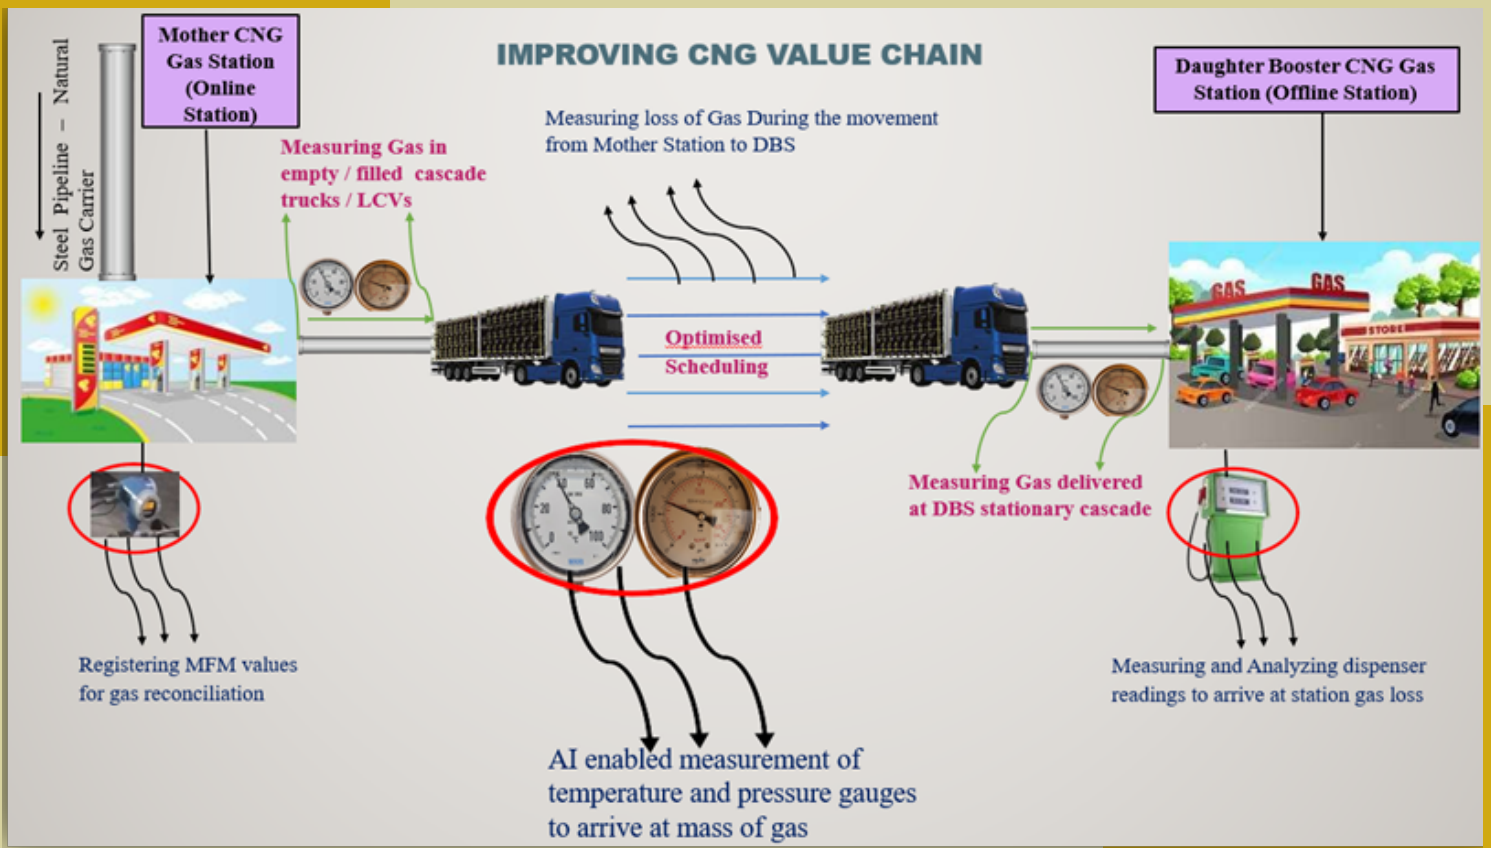

CNG SUVIDHA

*No Visibility
of Gas Loss
in Network*

ZERO DRY OUT

AI DRIVEN STOCK MOVEMENT & RECONCILIATION ALONGWITH LCV SCHEDULING AND OPTIMIZATION

Solution Benefits

- Mobile & Portal Artificial Intelligence (AI) Solution Platform
- Dashboard for analytical reports and configurable KPIs
- LCV optimised scheduling reduces operation costs & time by 30%
- Gas availability in the network and visibility during filling / decanting at the stations
- Tracking daily stock movement and reconciliation of CNG at the MGS, DBS, and CGS.
- Gas Accounting for stations and the network
- **Prevent Station from Drying Out**
