Our Journey in Carving Sustainable Utilities

Utility Challenges

€ To collect the payment within the DUE DATE

👤 Lack of visibility for utility on the consumer payment behaviour

Innovative Approach

- AI & ML based payment recovery and customer behaviour platform
- Integration through open API's for utilities, ERP, CRM & 3rd party applications
- Deployment in cloud / on premise setup
- Configurable business rules for quick adaption and usability
- In-built ESG KPI's

Solution Benefits

- Predictive outcome leading to early realization of revenue recovery
- 30% improvement in payment recovery
- 2% of annual turnover as unrealized interest gain
- Carving out sustainable utility with improved cash flow
